

HARDWARE SOLUTION

HFK – HANDS FREE KIT

AVAILABLE TO PURCHASE FROM TRAMIGO

Belonging to the professional accessory series, our HFK is explicitly designed for Tramigo's T23 Fleet Security Pro units, allowing you controlled communication between the fleet management control center or the fleet owner and the drivers.

Giving your driver instructions or follow-up on what happens on the road has never been this simple!

KEY FEATURES

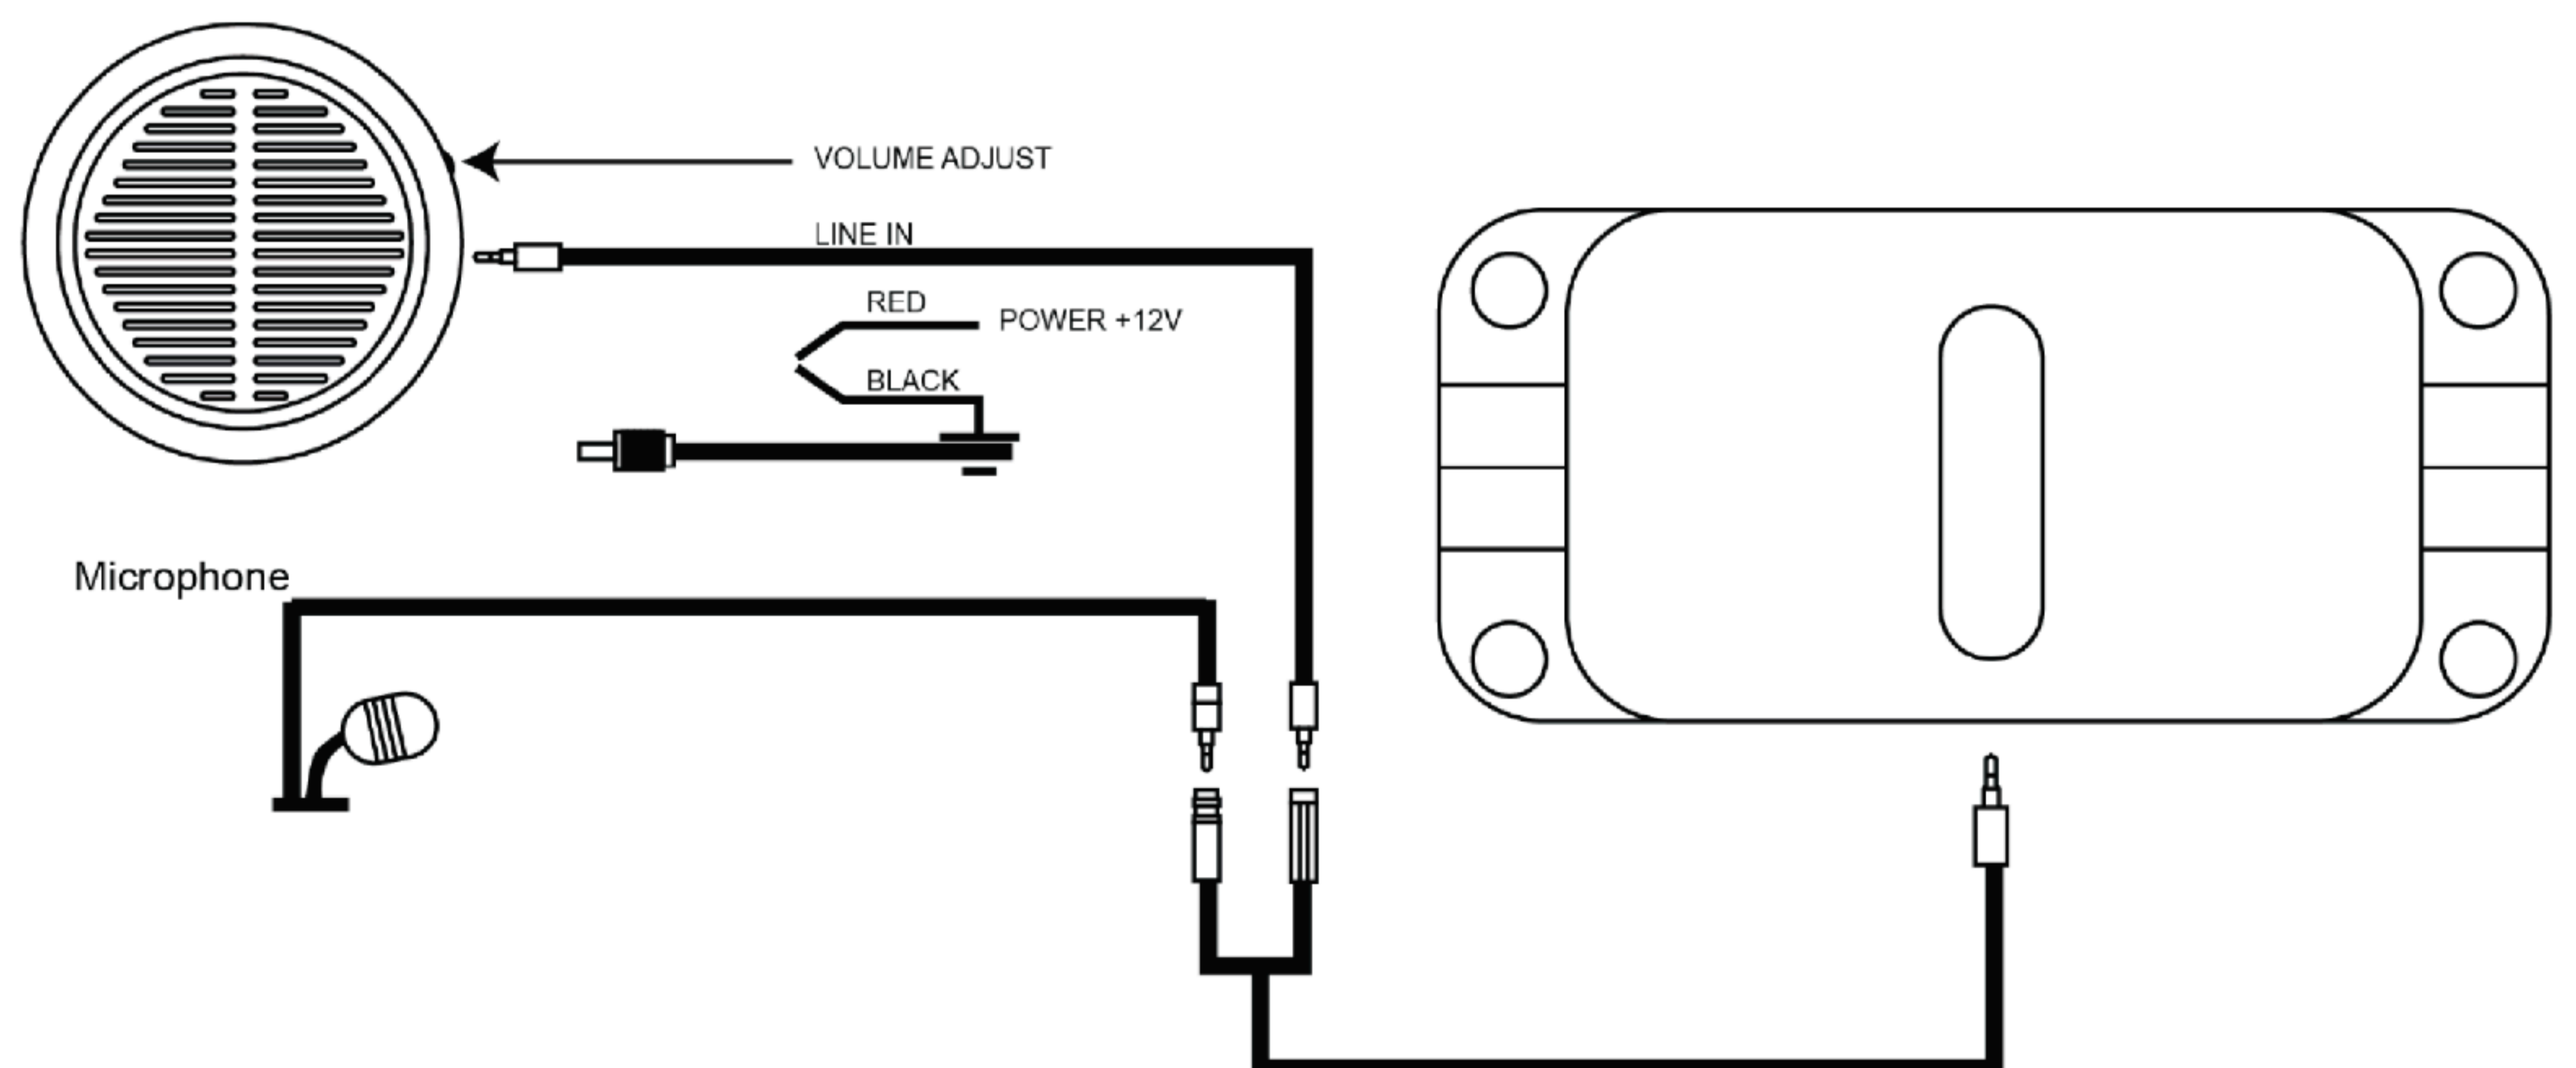

With Tramigo's HFK, you now can:

Increase control of your drivers: You can always reach your drivers. In cases of necessity, the driver can call you or a preset number with a press of a button.

Have back-up voice access: The HFK replaces the need to equip your driver with a phone, and ensures audio transmission even in remote areas.

Microphone is available also to allow listening inside the vehicle. Extension cable to place the microphone conveniently inside the vehicle.
