

COMPLETE SOLUTION

TRAMIGO T24 FLEET

COMPLETE AFFORDABLE & COST EFFECTIVE SOLUTION

Tramigo T24 Fleet supports 12v to 24V vehicles with immobilizer allowing you to remotely shut down the vehicle's engine in case of emergency. T24 Fleet eSIM edition comes with embedded eSIM and regional coverage and a wide range of accessories to accommodate your advance fleet management needs.

T24 FLEET FEATURES HIGHLIGHTS

- **Embedded intelligence**

The T24 Fleet eSIM is armed with a unique smart embedded firmware. It comes with Landmarks mapping standard and a wide range of user-defined checkpoint alarms. The system can be used both online and without the Internet. This allows critical alarms to be received real-time even in limited network environments.

- **Smart fleet management**

Keep up with your vehicles' maintenance schedules with our T24 Fleet odometer. Plus, all vehicle usage statistics like total trips, distance traveled, average speeds, etc. can be automatically compiled into user-friendly visualized reports.

- **Monitor driving habits and reduce fuel costs**

Detect idle engines, speeding, and other fuel consuming driving habits.

- **Detect vehicle misuses, unauthorized trips and theft**

With the T24 Fleet, you can set up checkpoint alarms, have embedded and server-based geofences, as well as up to 1000 user-defined zones. The T24 Fleet can also detect and send out real-time alarms for motion sensing, ignition sensing, over-speeding, idle engine, etc.

KEY FEATURES

GPS Features

External SOS Button

Landmark data for easy location

Speed Reporting

Geofencing

Motion Detection

Ignition detection and engine immobilization

Power Reporting

Idle alarm to detect running engines

TRAMIGO

TRACKING & CONNECTIVITY

T24 FLEET eSIM EDITION

The T24 Fleet eSIM complete solution comes with unlimited real-time tracking and data. The hardware comes with embedded eSIM and regional coverage and a wide range of accessories to accommodate your advance fleet management needs.

DATA INCLUDED (NO LOCAL SIM REQUIRED)

SEAMLESS CROSS-BORDER TECHNOLOGY

EXTREMELY AFFORDABLE ANNUAL PLANS

OPTIMIZED FOR TRACKING SOLUTIONS

MULTI-NETWORK CONNECTIVITY WORKS PERFECTLY IN EMERGENCY SITUATIONS SUCH AS THEFT AND HIJACKING

NO MORE CONNECTIVITY ISSUES

TECHNICAL DATA

Size 100 mm x 60 mm x 21 mm

Temperature Operating: -20 to + 80

Weight 120 g (with battery), 90g (without battery)

GSM 850/900/1800/1900 Quad Band, Multi-slot Class 12

GNSS/ GPS Multi-constellation with cold start - 148 dBm, Tracking - 165dB and accuracy <3m.

SIM Options Standard SIM and/or eSIM

Ports USB - micro USB - data input/output, GPIO-mOLEX 43045 - 12011 - 1 POWER, 1 GROUND, 3 DIGITAL

Power Input voltage 12V DC, 3.7 V
