TRACKING & CONNECTIVITY

COMPLETE SOLUTION

## TRAMIGO T24 TRACK eSIM

T24 Track Amazingly affordable and versatile

Ideal for private cars, small fleet owners and fleet management requirements such as vehicle finance and insurance companies now in affordable prices, but with same advanced security features. T24 Track is designed for 12 V vehicles and comes with ultra-sensitive GPS receiver and comes with embedded eSIM and connectivity data for regional coverage.

### KEY FEATURES

GPS Features

External SOS Button

Landmark data for easy location

Speed Reporting

Geofencing

Motion Detection

Ignition detection and disabling

Power Reporting

Tamper Alert

Periodic Reporting

Idle alarm to detect running engines

GPRS & GSM communication

### T24 TRACK FEATURES HIGHLIGHTS

- **Embedded intelligence**  
The T24 Track is armed with a unique smart embedded firmware. It comes with Landmarks mapping standard and a wide range of user-defined checkpoint alarms. The system can be used both online and without the Internet. This allows critical alarms to be received real-time even in limited network environments.
- **Smart fleet management**  
Keep up with your vehicles' maintenance schedules with our T24 track odometer. Plus, all vehicle usage statistics like total trips, distance traveled, average speeds, etc. can be automatically compiled into user-friendly visualized reports.
- **Monitor driving habits and reduce fuel costs**  
Detect idle engines, speeding, and other fuel consuming driving habits.
- **Detect vehicle misuses, unauthorized trips and theft**  
With the T24 Track, you can set up checkpoint alarms, have embedded and server-based geofences, as well as up to 1000 user-defined zones. The T24 Track can also detect and send out real-time alarms for motion sensing, ignition sensing, over-speeding, idle engine, etc.

### KEY ACCESSORIES

- ✓ Standard Backup battery (500 mAh) Heavy-duty Backup battery (1200 mAh)
- ✓ IO Basic Cable
- ✓ Remote Automotive Microphone
- ✓ SOS Button
- ✓ 12V Immobilizer

## TRACKING & CONNECTIVITY

### T24 TRACK eSIM CONNECTIVITY SOLUTION

The T24 Track eSIM complete solution comes with unlimited real-time tracking and data. The hardware comes with embedded eSIM and regional coverage and a wide range of accessories to accommodate your advance fleet management needs.

**DATA INCLUDED (NO LOCAL SIM REQUIRED)**

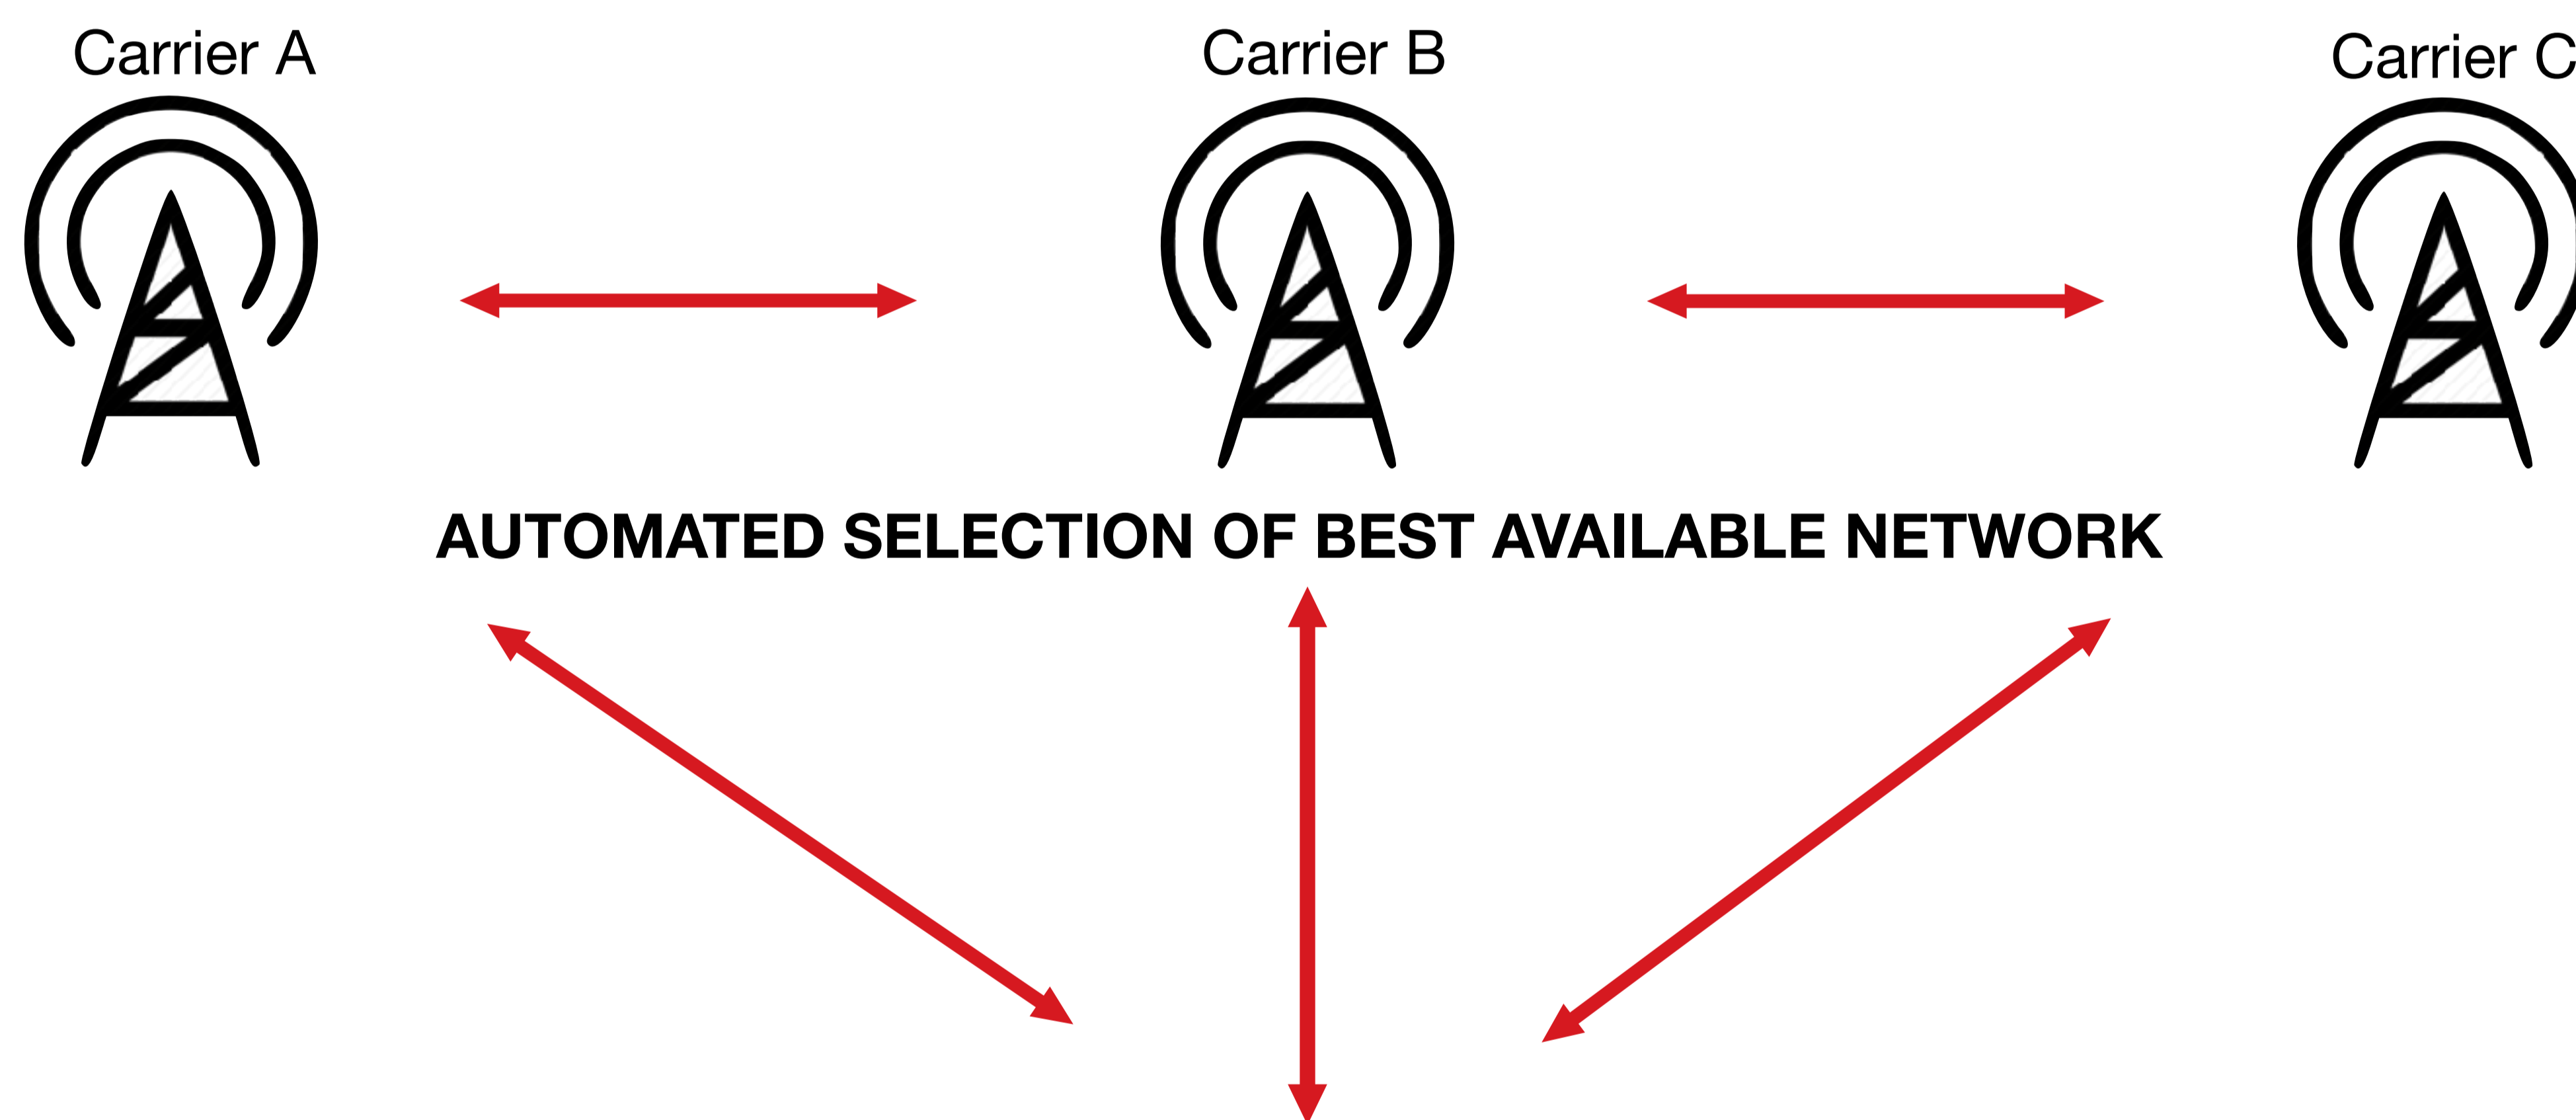

**SEAMLESS CROSS-BORDER TECHNOLOGY**

**EXTREMELY AFFORDABLE ANNUAL PLANS**

**OPTIMIZED FOR TRACKING SOLUTIONS**

### NO MORE CONNECTIVITY ISSUES

**MULTI-NETWORK CONNECTIVITY WORKS PERFECTLY IN EMERGENCY SITUATIONS SUCH AS THEFT AND HIJACKING**

### TECHNICAL DATA

**Size** 100 mm x 60 mm x 21 mm

**Weight** 120 g (with battery), 90g (without battery)

**GNSS/ GPS** Multi-constellation with cold start - 148 dBm, Tracking - 165dB and accuracy <3m.

**Ports** USB - micro USB - data input/output, GPIO-mOLEX 43045 - 12011 - 1 POWER, 1 GROUND, 3 DIGITAL

**Temperature** Operating: -20 to + 80

**GSM** 850/900/1800/1900 Quad Band, Multi-slot Class 12

**SIM Options** Standard SIM and/or eSIM

**Power** Input voltage 12V DC, 3.7 V
