## TRACKING & CONNECTIVITY

### TRAMIGOAPP

Designed to be compatible with Tramigo's latest hardware option and ready-to-go in minutes. With real time tracking & automated alerts you can stay on top of things like speeding, car leaving and entering your configured areas, unauthorized movement or even parking in unfamiliar areas.

### CONVENIENT VEHICLE TRACKING FOR FLEET OWNERS

### TRACKING FOR SME

TramigoApp allows you to monitor small fleets directly from your mobile and access live tracking and trip reports anywhere. Configure exception alarms (such as over-speeding, geofencing and motion alarms) based on your business requirements and avoid unwanted surprises.

### WHITE-LABEL AVAILABLE FOR ALL TRAMIGO SOFTWARE SOLUTION \*

Tramigo can now, among other things, allow their clients to white-label all of the software solutions and provide access to their own backend with minimal effort.
