

COMPLETE SOLUTION

DI04-USB

CABIN MONITORING USB CAMERA

The DI04-USB, with its wide viewing angle, can be paired with the DC03-AI for comprehensive cabin environment monitoring. Equipped with two infrared LEDs, the camera enhances low-light visibility, ensuring clear surveillance both day and night.

DI04-USB TECHNICAL DATA

Name	DI04-USB
Scenario	Monitor the cabin
Compatibility	DC03-AI
FoV	135° (H), 85° (V), 170° (D)
Resolution	Full color in daytime and monochrome in dim light
Night Vision	IR-940*2

Operating Voltage	Obtain power from DC03-AI
Dimensions	Φ14
Recommended Install Position	USB port on DC03-AI
Fixation	Screws
